Realize Your Creativity

Realize your creativity

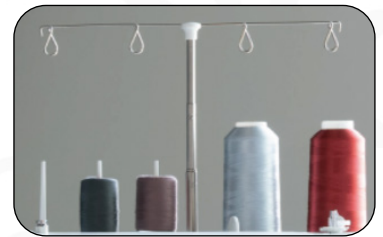

Transfer Files

Built-in-Wi-Fi

Easily send embroidery designs to your machine from your mobile device or computer!

Multiple-spool Holder Stand

Conveniently line up several spools of thread when sewing or embroidering.

Stitch Monitoring

Independent Bobbin Winding System

No need to re-thread after winding a bobbin - save time by winding a bobbin while sewing or embroidering

5" TFT LCD Color Touch Screen, OS System Installed

Easily preview design colors and effortlessly control or adjust machine features with just a touch.

Large Embroidery Area

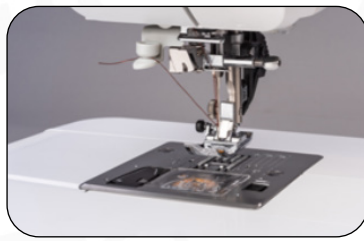

Unleash your creativity with the large 160 x 260mm (3.3" x 10.2") embroidery area.

Electronic Buttonhole Foot

This advanced accessory offers precise tuning adjustments for both buttonhole length and width, allowing you to achieve the perfect buttonhole for your project with ease.

Advanced Auto Threader

The ultimate time-saving solution for seamless thread changes. Effortlessly switch between threads and begin sewing in seconds, eliminating the hassle of manual threading.

Bright Illumination

Illuminate your sewing projects with five ultra-bright LED lights, ensuring optimal visibility and precision even in low-light conditions.

Auto/Manual Presser Foot Lifter

Choose between automatic and manual presser foot settings.

Large Working Space

Spacious 230mm (9") working space area provides ample room to maneuver fabrics and accommodate bulky materials, ensuring seamless sewing without compromise.

Extension Table Included

Accommodate larger projects with ease. This extension table provides a spacious working area, allowing you to tackle oversized projects with confidence and precision.

Dual Feed System

This feature ensures superior fabric feeding capability while providing the flexibility to easily engage or disengage the system as needed.

Box Feeding System

Advanced Box Feeding System ensures optimal fabric control and precise stitching with every pass.

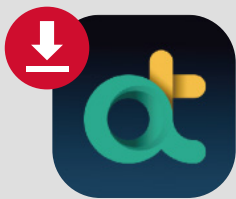

Multi-function Foot Controller

Engage functions like auto-lock, trimming, or raising the pressure foot, all with the ease of a foot tap.

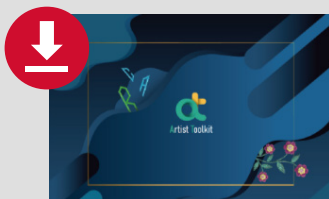

Knee Lifter

Raise the presser foot without using your hands. Enjoy the freedom of hands-free operation, enabling you to achieve professional results with every stitch while maintaining optimal comfort and control.

Artist Tool App

Create and edit your designs and monitor embroidery progress from your mobile device or tablet.

Artist Toolkit

Easy to use multi-function embroidery software. Compatible with Windows or MAC OS.

PHOTO STITCH

Transform your photo into stunning embroidery designs. Choose between cross stitch, random stitch, or overlap satin stitch.

EDIT MODE

70 Embroidery patterns included. Freely rotate, align array and edit your designs.

TEXT MANAGER

Manage and create text with 11 built-in fonts. Edit the size, place text on a path or on any shape you have created.

PAINT MODE

Draw different shapes and graphics to create your own design!

- Draw Poly-line
- Draw Curve
- Draw Arc
- Paint Mode
- Open/Close Curve
- Pressure Sensitivity
- Applique

MONOGRAM

Bring your monogram ideas to life with our selection of fonts and frames.

PRESSURE SENSITIVITY

Create paint strokes using your pressure sensitive stylus. Control the width, spacing, angle or jitter based on the pressure of your stylus on the tablet.

Pressure sensitive stylus is mandatory
